

Why do we need Google API & Youtube API?

Inorder to work the Website Audit: We need to **Enable following API service form Google, Its FREE:**

- 1, Page speed insights api ,
- 2, Safe browsing api ,
- 3, Safe browsing api (legacy)

Inorder to work the YouTube Audit: We need to **Enable following API service form Google, Its FREE:**

- 1, Youtube api v3

How to Start?

Step-1

Login to thecompleteseo.com premium login in below link:

<https://thecompleteseo.com/website-auditor-pro/login>

Go to Settings:

<https://thecompleteseo.com/website-auditor-pro/account-settings>

You need to add the “Google API Key” and “Youtube API Key”

Step-2

Login google console with below link:

<https://console.cloud.google.com/>

Create one New Project for Website Auditor and enable this three API key

- 1, Page speed insights api ,
- 2, Safe browsing api ,
- 3, Safe browsing api (legacy)

Create second Project for Youtube and Enable the below One API key

- 1, Youtube api v3

Then Go to :

Credentials - Create Credentials- API Key - Copy that API and

Paste in “TheCompleteseo” Settings Section.

Now we are ready to start “TheCompleteseo” Auditing
